<b>Sarajevo</b>	0	0	0	1	0	0	<b>1</b>

<sup>1</sup> The data included in this file concerns COVID-19 cases amongst IRMCT staff members and Principals only. It does not include cases amongst staff's household members or amongst non-staff such as interns, defence teams, witnesses or judges other than the President.

<sup>2</sup> Currently infected is defined as being infectious; recuperating is defined as no longer being infectious but due to residual symptoms (e.g. fatigue) not well enough to return to work.

<sup>3</sup> Recovered is defined as no longer being infectious and being well enough to return to work.
