

Digital COVID-19 Vaccination Certificate (DCC)¹

I. How to obtain the COVID-19 vaccination certificate (DCC) for vaccinations received within the framework of the Dutch national vaccination programme:

Option A: Persons without a DigiD vaccinated by a GGD

Persons who have been vaccinated as part of the Dutch national vaccination programme by a GGD and who are unable/unwilling to obtain a DigiD can request a DCC at the GGD Haaglanden. Applications can be submitted through **vaccinatieqr@ggdhaaglanden.nl** and should include:

- First name(s)
- Last name
- Date of birth
- Address (including postal code)
- Place of residence
- Location and date of vaccinations
- Email address to which the DCC can safely be sent (preferably professional email address)
- Telephone number

Furthermore, the application should be accompanied by:

- A copy of the diplomatic passport or a copy of the diplomatic identity card that has been issued by the Ministry
- A copy of the vaccination registration card that has been issued by the GGD (please note that a copy of the yellow booklet is not accepted).

In certain cases, the applicant may be asked to identify themselves at the office of the GGD Haaglanden by appointment. GGD Haaglanden aims to process applications within three working days. If identification in person is needed, the overall process may take longer. Further questions about the above-mentioned procedure may be directed to vaccinatieqr@ggdhaaglanden.nl.

Option B: Persons without a DigiD vaccinated by their General Practitioner (GP)

Persons who have been vaccinated as part of the Dutch national vaccination programme by their General Practitioner (GP) are advised to contact their GP for the issuance of a DCC.

If the GP is unable or unwilling to assist, the person may call the Helpdesk of the Netherlands Ministry of Foreign Affairs at **+31 247 247 247**. The Ministry will forward the call to the authority which will arrange for the issuance of a paper-based DCC which will be sent by mail to the person's home address in the Netherlands. This procedure is only open to those who authorised their GP to transmit the vaccination data to the RIVM.

Option C: Persons with a DigiD vaccinated by a GGD or GP

For persons in the possession of a DigiD, a DCC can be generated in the **CoronaCheck** app.

II. How to obtain the COVID-19 vaccination certificate (DCC) for vaccinations received outside the framework of the Dutch national vaccination programme:

Option A: Persons vaccinated in a third (non-EU) country

Persons who have received their vaccination -- with a vaccine approved by the EMA or WHO -- in a non-EU country can obtain a DCC by visiting the **public health service (GGD) in Utrecht**. This service is by appointment only. An appointment can be made by calling **(030) 800 2899**.

For a list of vaccines approved by the EMA or WHO, as well as conditions for proof of vaccination, please see:

¹ Information as of 13 September 2021.

<https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/requirements-for-proof-of-vaccination>

Option B: Persons vaccinated in the Netherlands outside the national vaccination programme

Diplomatic missions and International Organizations are invited to follow the procedure outlined above under Option II.A at the GGD Utrecht.

Option C: Persons vaccinated by competent authorities in another EU member state

Persons are invited to contact the institute that provided their vaccination within the EU member state concerned to obtain a DCC.

Note that persons that received one vaccination in the Netherlands and one vaccination in another EU member state can obtain their COVID-19 vaccination certificate in the EU member state where they received their last vaccination.
